OPNAV NOTICE C3110

Subj: Allowance and location of naval aircraft (U)

Ref: (a) OPNAVINST C3110.1B of 2 May 73, U.S. Naval Aircraft Program
(b) OPNAVINST 5442.2D of 31 Aug 73, Aircraft Inventory Reporting System
(c) OPNAVINST C5513.2A of 19 Mar 79

Encl: (1) Allowance and Location of Naval Aircraft

1. Purpose. To promulgate unit operating aircraft allowances for FY 80 and actual on-hand aircraft inventories as of 30 September 1979.

2. General Instructions

a. Enclosure (1) establishes unit operating allowances of the naval aircraft program within each major operating command, projected for end FY-80. The allocation of naval aircraft by model is reflected in reference (a), which establishes the allocations for major operating commands in accordance with the approved planning factors and available inventory. In those instances where apparent inconsistencies occur between operating allowances and allocation, reference (a) shall be the controlling instruction, since it represents the planned implementation of the aircraft program for which Congress approved and provided funds. Actual on-hand aircraft inventories are developed by reference (b).

b. If the allowances set forth are not deemed suitable for the mission which an activity or command must support, the Chief of Naval Operations will consider recommendations for changes in models and allowances of aircraft. However, any requests for such changes that would result in an increase in a major command's total aircraft operating allowance should contain that command's recommendation for a compensatory reduction.

c. Specific assignment of aircraft to individual officers is prohibited by the Secretary of the Navy.

d. Designation of aircraft listed herein is in conformance with reference (a).

e. Reporting custodians shall select and report operating and awaiting operating status codes, so that the primary use feature of the status code will conform to assigned primary use codes of allowed aircraft.

3. Distribution. Each addressee is requested to review his need for this publication and inform the Chief of Naval Operations (Op-508) if subsequent editions are not desired. Requests for additional copies or addition to the distribution list must be justified on an individual basis.

4. Classification. Users of this publication should refer to reference (c) to ascertain the proper classification of extracted information.

- 1/ NAVAIRSYSCOM FS reporting custodians shall never report aircraft as in status codes A-- or B1- through B8- and BH- through BM-. Aircraft in upkeep (as opposed to rework) shall be retained in Operating/Awaiting Operating Status.
- 2/ Aircraft will not be assigned status codes B1- through B8- or BH- through BM- if rework is required prior to further use.
- 3/ Select and report third character to best describe aircraft situation:
 - Ø - A/C RFI (or expected RFI within 48 hours) and Not in Transit.
 - l - A/C Not RFI, Not In Transit.
 - K - A/C Enroute Between Operating units by Flight.
 - L - A/C Enroute Between Operating units by Airlift.
 - M - A/C Enroute Between Operating units by Surface Transport.

OPERATIONALLY REQUIRED INACTIVE AIRCRAFT (NON AGING) 1/

UNDAMAGED AIRCRAFT	K4-	KD-
CLASS C OR D DAMAGE	K5-	KE-
<u>REWORK NOT REQUIRED</u>		
	K6-	KF-

- 1/ Specific approval by the cognizant controlling custodian is required prior to placing an aircraft in any of the K-- Status Code combinations except when the third character is H (suspension of flight operations) or the aircraft is awaiting rework, prior to transit or at the rework facility. Include authority in remarks on XRAYs for aircraft entering K-- Status. Suspension of flight operations will be authorized by the controlling custodian or other proper authority. Aircraft awaiting rework prior to transit or at the rework site (Status Codes E-A; H-A; E-1; or H-1) in excess of 7 calendar days will be placed in the appropriate K-- Status Code. Upon induction, aircraft status shall be reported in the appropriate in-process status.
- 2/ Select and report third character from table below to best describe aircraft situation:

A - Airframe	F - Aircraft Rework Backlog
B - Power Plant	G - Framp Trainer
C - Avionics/Armament	H - Suspension of Flight Ops
D - Insufficient Personnel	J - Aircraft Temporarily in Excess of Authorized U. E.
E - Insufficient Rework Funds	K - Other
